Project Name	Smart Fashion Recommender Application

The screenshot shows the IBM Cloud console interface for a Db2-xn instance. The left sidebar contains navigation links: 'Manage', 'Getting started', 'Service credentials', and 'Connections'. The main content area is titled 'Getting started' and includes the following text: 'Where can I find my credentials? Get your username and password by clicking the "Service Credentials" link to the left and selecting "New Credentials". Don't see this menu on the left? Click on "Manage in IBM Cloud" to open the IBM Cloud dashboard.' Below this text are three buttons: 'Go to UI', 'Getting started docs', and 'Support case'. A 'Need help?' section on the right encourages submitting a support case. The top navigation bar shows 'IBM Cloud', a search bar, and the user's account name 'Mohamed Aslam's Acc...'.

The screenshot displays the 'Service credentials' section in the IBM Cloud console. It shows a table with one entry: 'Service credentials-1', created on '2022-11-30 4:23 PM'. Below the table, the 'JSON' tab is selected, showing the credential's configuration. The configuration includes a 'connection' object with 'url' and 'password', and a 'credentials' object with 'username' and 'password'. The 'password' field is masked with asterisks. The 'JSON' tab is selected, and the 'JSON' content is displayed in a text area.
